DESIGNED BY JORGE PENSI

JORGE PENSI DESIGN STUDIO was set up in 1984. Since then the studio has consolidated its position as a global point of reference for contemporary design. Its minimalist and expressive designs have received numerous prizes and awards. Some of its first products, such as the Toledo chair or the Regina lamp, have since become Spanish design icons. In 1997, Jorge Pensi was awarded the National Design Prize by the Ministry of Industry and Energy and the BCD Foundation for outstanding professional achievement.

If there is one thing which defines Jorge Pensi Design Studio's products, it is their timelessness. They constantly seek a balance between poetry and realism, material and space, abstraction and emotion. The aim is to create as many sensations as possible with as few resources as possible, challenging the usual logic in order to establish whether or not it is possible to create something new.
