

KNOT

design

Santiago Sevillano

Una lámpara teatral y de estilo futurista perfecta para espacios públicos o viviendas vanguardistas. Orgánica y de aspecto ligero, con cierto aire retro, KNOT no pasa desapercibida, y se convierte en el perfecto foco de atención. Fabricada en policarbonato y fibra de vidrio, en blanco o negro, aloja una serie de leds en su interior que arrojan luz en diferentes direcciones gracias al particular diseño de la lámpara. Intrincada en su concepto, pero esencial en su resolución, la lámpara KNOT es un interesante ejercicio formal.

A theatrical lamp with a futuristic style which is perfect for public spaces and avant-garde homes. Its organic and light appearance, along with some retro flair, KNOT will not go unnoticed, and it becomes the perfect focal point. Made in polycarbonate and fiberglass, wether in black or white, it hosts a series of leds that shed light in different directions due to the particular design of the lamp. Intricate in concept, but essential in its resolution, the KNOT lamp is an interesting formal exercise.
