SENTO

designed by

FERNANDO MARTÍNEZ

SENTO is a design featuring conical metal shades, complemented by an acrylic diffuser that softens the light for a uniform and elegant illumination. It is available in various versions, including individual and multiple pendants, with an adjustable system to direct the light as needed in the space.

As a new feature, we have updated the collection's finishes: textured terracotta, sand, green, white, and black. This color palette brings us closer to nature and integrates seamlessly into any interior design style.

SENTO es un diseño de campanas metálicas troncocónicas, complementadas con un difusor acrílico que suaviza la luz para una iluminación uniforme y elegante. Disponible en diferentes versiones colgantes individuales y múltiples, con sistema de orientación para adaptar la luz según las necesidades del espacio.

Como novedad, hemos actualizado los acabados de la colección: teja, arena, verde, blanco y negro texturizados. Esta paleta de colores nos acerca a la naturaleza y se integra perfectamente en cualquier estilo de interiorismo.
